Subject: [EXTERNAL] Pickle Ball Support for Ross Courts

Hi,

I am writing to support pickle ball play on private ross courts. My husband and I are the owners of 2 Pomeroy Road and have a private tennis court. None of the court activity reaches a sound level any different than children playing basketball on nearby driveways or splashing in neighboring swimming pools. The sound of pickle ball is not even close to the loud noises of all the ongoing construction in the area which is typically happening at 1-2 nearby properties on any given day. Daytime sports should not be limited in the town of ross, we already have a noise ordinance in place for loud evening activities.

Thank you,

Erica Bell
